

COURSE SCHEDULE FOR MASTER OF SCIENCE STUDENTS IN RENEWABLE NATURAL RESOURCES

All M.S. RNR students in their initial semester should meet with their Advisory Committee and plan a program of study, identifying what courses the student will take and the semester to be taken. Completed forms should be provided to the student, all members of the Advisory Committee, and the Administrative Assistant in charge of Student Services in room 227 of the RNR Building. The form should list all courses that will be completed by the student, and any waivers of required courses should be initialed by the Committee Chair. Note that all M.S. students are required to take 30 hours of credit, 6 of which will be RNR 8000. At least 12 of the remaining 24 hours must be graded courses at the 7000-level or above, and no more than 6 hours each of RNR 7029 or RNR 8900 will be counted for the degree.

Name:	Area of Concentration:	Date:
Minor Field (if any):	Initial Semester:	Anticipated Graduation Date:
Thesis topic:		

Required Courses:

Course Number, Title	Credit Hours	Semester Taken/Grade	Waiver
RNR 7001 – Research Methodology
